

# ARE CRIMINALS TARGETING YOUR TRASH?

## Take Trash With You:

Criminals target the dumpsters at retailers, because they know they will find receipts. Although the receipt doesn't show all your information, it can reveal crucial details.

## Cut It Up:

-Make it a habit to always cross-cut shred important documents before putting them in the trash.

-The best thing to do is to cut everything up. Whether it's a TV, or even a small electronic item, you should cut the cardboard box up into flat pieces.

## You've Been Pre-approved:

Criminals may retrieve credit card pre-approvals and try to activate the cards for their use without your knowledge.
