

# Public Wi-Fi Safety Tips

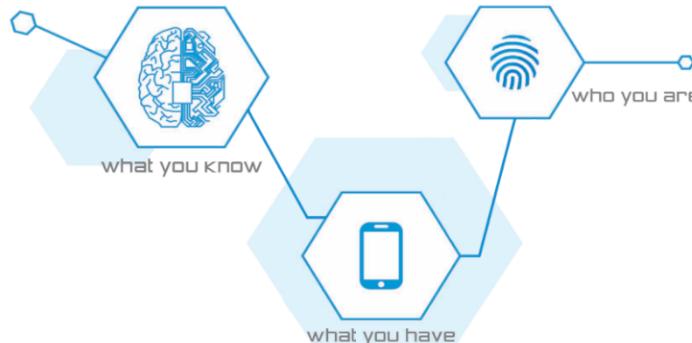

Avoid entering your sensitive information on banking or shopping websites.

Make sure pages that you use are secure.

**https://**

Use Multi-Factor Authentication on all accounts and unique passwords on all sites.

Confirm the Wi-Fi network you connect to is not "fake" or someone's mobile hotspot.

CoffeeCafe  
DazzlingDiner  
JanesHotspot  
JoesCell

UnknownNetwork

Use your mobile data instead. Or use a VPN if available.

Turn off file sharing functions and make sure your firewall and antivirus are activated.
